

# Conscious vibratory therapies

PRIVATE-  
PERSONALIZED

[www.sanctuaryoflight.co](http://www.sanctuaryoflight.co)

Our sanctuary is a portal designed to elevate your vibration and magnetism, helping you manifest an abundant and luminous life. We offer individual, intimate, and personalized retreats, tailored exclusively for you or for you and your partner. The exclusivity of these retreats ensures complete privacy, allowing you to explore your deepest levels of consciousness with openness and trust.

You will work with a team of therapists specially chosen for your process, led by Pedro and Paulina, who will guide the ceremonies and ensure that your experience is harmonious and transformative.

Hi, we are Pedro Veintimilla and Paulina Perez, explorers of consciousness, holistic therapists of various branches (vedic, shamanic), coaches and where we incorporate ancestral medicines with psychotherapy, technology and oriental medicine to make quantum leaps in people's lives.

We facilitate and accompany our patients in their physical, mental, spiritual and astral healing processes.

We travel the world bringing personalized therapies and ceremonies.

We love to travel because in each country we study the different techniques that exist for the healing and connection of the being.

Our mission is to awaken each person that the universe puts on our path because together we will change the world and thus return to our origins.

Rebirth, free yourself from negative bonds and illnesses, and flourish. This vibrational medicine will raise your vibration and realign you with the universe, enhancing your power of manifestation and well-being.

Our ceremony uses the power of high vibrational sound to guide you to depths of your subconscious, helping you release stuck energies, disease and trauma and fill your being with light, consciousness and abundance. This powerful medicine will open the path to manifestation and enlightenment.

- Massive release of accumulated stress (conscious or unconscious)

**Benefits :**

Consuming 5-MeO-DMT boosts neurotransmitter production (serotonin, melatonin, tryptamine) and healing enzymes, releasing deeply held stress. This awakens the immune system, allowing gradual self-correction of physical, mental, and emotional imbalances.

The medicine's impact lasts days, fading gently over time, even for months in some cases.

**The Power Within:**

Consciousness, willpower, environment, and habits shape the journey. Embrace them to amplify healing and growth. These elements can either hinder our path or enhance our evolution, depending on our choices.

Transformation unfolds gradually. While personal shifts might go unnoticed by an ego, those around us often perceive the positive changes. Every facet of the Toad medicine heralds positivity and renewal.

Kambo is known as the "amazon vaccine" because of its antiviral, anti fungal and detoxifying effect in the self.

This substance is a potent medicine traditionally used to enhance strength and abilities before hunts, to combat diseases and ailments, as a remedy against venomous bites, and to heal fevers.

It's also employed for energetic or spiritual ailments known as 'panema,' which tribes define as dark, heavy, or negative energies manifesting as depression, laziness, and clouded mind. By removing 'panema,' life regains happiness, vitality, and energy.

### **Effects**

Kambo works on the first 3 bodies:

Mental: stops mental rumination and helps let go of thoughts and patterns

Physical: Detoxifies the body and helps the body heal and regenerate

Spiritual: It liberates the spirit from negative karmic energy

We apply kambo at specific TCM acupuncture points depending on the issue you are working through, in our experience this mix of eastern and amazonian techniques allow for a more tactical employment of the medicine

### **Benefits :**

Short-term: Enhances alertness, mood, endurance against fatigue, hunger, and thirst. Sharpens focus, concentration, and brings lasting mental calm for weeks or months.

Long-term: Boosts the immune system, conquers fatigue, and improves overall health. Regular recipients remain illness-free and energetic. It prevents illnesses from various viruses by restoring natural balance, and even inhibits cancer growth in some cases. For optimal results, consistent Kambo use is advised. In serious conditions, addictions, or pharmaceutical toxins, a double treatment can prove effective over a period. This intensifies cleansing effects, extending their duration.
